**Subject:** Niagara Falls Boulevard/Holy Trinity Cemetery/738 Upper Mountain Road Overtime Comp Request Pay Period 23

Good Morning:

I hope all is well.

Below is the estimated overtime for Niagara Falls Boulevard Site Removal Action, Holy Trinity Removal Action and the 738 Upper Mountain Road Assessment based on the schedule I have worked out with property owners, operators and contractors. I previously submitted a more detailed explanation of work schedule and scope of work at the sites to assist management in justifying work schedules and overtime requests. Thanks

-

**Travel Date Range: 10/10/2016 through 10/30/2016 (Pay Periods 22 & 23)**

Travel days to/from Site are 10/10/2016 (Pay Period 22), 10/29/2016 (Pay Period 23)

**Travel Comp Time Requested for PP 23**

-

10/29/2016: 8 hours Travel Comp requested

**Overtime Hours Requested for PP 23:**

10/17/2016 through 10/21/2016: Estimated **2 hours** per day (10 hours OT)

10/22/2016: Estimated **10 hours** per day (10 hours OT)

-

**Total Overtime Hours Estimated: 20 Hours**

If I am not approved for any overtime already submitted or future OT anticipated, I need to know ASAP. This will change anticipated work schedules and other aspects of the site.

**Justification:**

OSC Daly will be traveling on 10/10/2016 via GOV to Niagara Falls, NY for Niagara Falls Boulevard Site to continue oversight of gamma survey assessment, soil sampling, demolition, removal and staging of contaminated material from designated areas within GNBC structure as well as removal of contaminated material from the surrounding parking lot/wooded areas. Gamma surveying and soil sampling will also be performed at Holy Trinity Cemetery and 738 Upper Mountain Road during this time range.

In order to maximize travel time, resources, EPA funding, property owner scheduling and contractor scheduling, all this work will be conducted continuously within this time range. It will require at least Ten-10 hour work days to complete the described work during the regular work week. Work may also be necessary to be performed over the weekend. GNBC closes early on Saturday and is closed on Sunday which will allow for the noise and prevent disruption to the operators and patrons in these specific inside areas during certain activities. During this time range we may need to work

on 10/22/2016. EPA is also working with private residences/Town of Lewiston at the Holy Trinity Cemetery Site as well as 738 Upper Mountain Road Site. This work may also require accommodations outside normal business hours and additional overtime for personnel. The document with more specific breakdown of work being performed at the sites was forwarded previously and available upon request.

As in past request, the worst case scenario for overtime is requested but is dictated by the timing of the work and cannot be scheduled exactly. Some of the previous weekend hours requested for this removal action were not even worked.

Regards,

Eric
